

## Teen Activity Log

Complete any six activities on this page. Tell us which six you completed before September 15 and you will receive a prize and enter the prize drawing.

— Read a biography of a scientist or any nonfiction book.

— Review a book you have read this summer. Tell your review to a friend or family member.

— Watch a DVD about any science topic.

— Take a walk and observe the plants and animals you see.

— Do a science experiment.

— Explore a new genre you don't usually read – science fiction, realistic fiction, mystery, etc.

— Attend a library program or volunteer at the library.  
You may count any programs or volunteer time this summer.

— Read for one hour.

— Identify one or more birds or insects in your yard, your neighborhood, or the park.

— Use a library resource that you haven't used before.

— Read for one hour.

— Look up the following words in a dictionary: biosphere, condensation, and galaxy.

— What invention would you like to design? Think of how it could be created.

— Read for one hour.

— Draw a picture or take a photograph of something growing outside.

— Read poetry or write a poem.

Teen Prize Drawing Entry  
I completed at least six activities on this page.
